IKA MultiDrive BL 2000 T

/// Data Sheet

Available from Q3/2019

BL 2000 T is a vessel with mixing knife and temperature sensor, which is particularly useful in combination with IKA MultiDrive control for wet grinding of a variety of applications, such as meat, sausage, soy beans, silage, vegetables.

The integrated temperature sensor allows continuous monitoring and an individual setting of the temperature limit. This is especially meaningful for temperature sensitive materials.

designed for scientists

All parts can be cleaned in a dishwasher. The knife is easy to dismantle for intensive cleaning.

The scope of delivery includes a standard mixing knife made of stainless steel.

designed for scientists

Technical Data

Process type	batch
Operating principle	cutting/impact
Useable volume max. [ml]	2000
Feed hardness max. [Mohs]	5
Feed grain size max. [mm]	7
Material beater/cutter	stainless steel 1.4034
Dimensions (W x H x D) [mm]	180 x 280 x 220
Weight [kg]	1.5
Permissible ambient temperature [°C]	5 - 40
Permissible relative humidity [%]	80
